

Passion for food, premium design and the love for spending time outdoors with family and friends is what brought Quan alive. Now, we would like to invite you to enjoy it too.

Quan Team

Unique construction and high quality materials

Quan is a result of a long engineering process and many tests. Our goal was not only to make it look like a piece of art, but make it also very functional. We developed it together with our Quan Chefs, through carefully listening to all their opinions and suggestions.

The top plate is made of 15mm tempered carbon steel. This type of material prevents the change of shape while being exposed to high temperature. Depending on the weather conditions and the kind of wood used for burning, the top plate can reach temperature over 400° C in the center area. The outer area remains slightly cooler which is perfect to control the speed of cooking.

The inner bowl is made of stainless steel and can be removed for cleaning. This means that whatever gets burned in the fireplace, you can always give Quan its original, shiny clean looks. Additionally it isolates the outside bowl from direct fire to keep it cooler.

The outer bowl helps to protect you and your loved ones from instant burns, however caution is always advised.

The base guarantees stability and serves as an air intake for the fireplace. Carefully designed channels and vents inside the structure provide sufficient amount of airflow. This makes starting the fire much easier. It also results in a more stable and efficient burning process, causing less unnecessary smoke.

Installed inside the base there is an ashtray which allows to easily remove ash from underneath after burning. There is also an adjustable air intake - as part of our airflow design - which allows you to control the intensity of fire.

Airflow design

Burning wood is much different than burning charcoal. It is more difficult to handle. This is the reason why we spent many hours engineering Quan. Carefully designed channels and vents inside the structure provide sufficient and adjustable airflow. All this results in a more stable and efficient burning process, causing less smoke. It also makes it easier to start of the fire at first, as well as it helps to keep the walls restrainedly cooler.

Quan System

There are many ways to use Quan thanks to a growing number of accessories and add-ons:

- Gourmet
- Heat
- Cooking
- Grilling
- Smoking
- Wok
- Spit roasting

Gourmet & Heat
Professional line

I. Gourmet & Heat

III. Professional Line

I. Pro Fire

Quan Professional Line is dedicated to commercial use at HoReCa, outdoor kitchens and catering. It is made of black galvanized steel and stainless steel which is easy to clean and maintain. The construction is toughened and all products are on rollers for easier transportation.

Pro Fire is the cooking unit from the Professional Line. In comparison with Quadro/Rondo products its fireplace and top plate are bigger which results in almost 40% increase in heated surface area. An ashtray in form of a drawer allows for easy removal of ashes during long cooking sessions.

Dimensions (mm): H 1000 W 1200 D 1200

I. Gourmet & Heat

III. Professional Line

II. Pro Ice

Pro Ice is a side table and cooling unit from the Professional Line. Its granite top is durable and easy to clean. It is surrounded by a rail for hanging accessories. Top drawer is meant for other accessories and utensils. Bottom drawers are actively cooled and allow to storage food. Electrical accessories require power supply.

Dimensions (mm): H 1000 W 1200 D 1200

I. Gourmet & Heat

III. Professional Line

III. Pro Water

Pro Water is a functional side table and washing unit from the Quan Professional Line. Its granite top is durable and easy to clean. It is surrounded by a rail for hanging accessories. The double sink gives plenty of space for washing products. Centrally located kitchen tap with elastic water flow is easy to reach from all sides. Water can be heated with an integrated heating unit. Pro Water contains a 40 liter water tank, with the possibility of connecting hosepipes, in order to drain water. Electrical accessories require power supply.

Dimensions (mm): H 1000 W 1200 D 1200

IV. Wood Storage

Wood storage unit from the Professional Line

Dimensions (mm): H 2000 W 1200 D 800

Gourmet & Heat
Rolling Kitchen

I. Gourmet & Heat

IV. Rolling Kitchen

A perfect combination of multiple functions in one compact unit. It includes 1000 x 1000mm fireplace, space for food preparation with easy to clean granite top, a sink (requires water connection), drawers for accessories and wood storage below the fireplace. An ashtray in form of a drawer allows for an easy removal of ashes during long cooking sessions. Rolling Kitchen is supported on rollers which make it mobile.

Dimensions (mm): H 950 W 2400 D 1000

Furniture

II. Furniture

I. Tablet Set for 6

Comfortable and durable table and chairs complement the wide range of Quan Garden Art products. Granite top is easy to clean, the base is made of corten steel, it includes wood storage which provides greater stability. Centrally located fireplace is a unique feature and creates an exclusive atmosphere round the table. The upper parts of the chairs, are made of oil-treated Oakwood.

Dimensions (mm): H 750 W 1800 D 1200

II. Furniture

II. Tablet Set for 10

Comfortable and durable table and chairs complement the wide range of Quan Garden Art products. Granite top is easy to clean, the base is made of corten steel, it includes wood storage which provides greater stability. Centrally located fireplace is a unique feature and creates an exclusive atmosphere round the table. The upper parts of the chairs, are made of oil-treated Oakwood.

Dimensions (mm): H 750 W 3600 D 1200

II. Furniture

III. Lamp

There are three options to choose from: electric (LED – requires power supply), solar (LED powered by solar system) or kerosene fueled.

Dimensions (mm): H 1900 W 800 D 800

II. Furniture

IV. Modular Lounge

Low level, relaxed seating. The modularity of the set allows to make different configurations.

Dimensions (mm): H 600 W 900 D 900

II. Furniture

V. Bench

3-person metal bench with wooden seats

Dimensions (mm): H 450 W 1400 D 450

II. Furniture

VI. Wood Storage I

Wood storage unit for Quadro Line

Dimensions (mm): H 2000 W 900 D 800

II. Furniture

VII. Wood Storage II

Wood storage unit for Quadro Line

Accessories

III. Accessories

I. Smoke Box

An accessory for the Quadro and Rondo Standard Line products. It allows convenient smoking of meat and fish not limiting the cooking surface. Additionally, it serves as a chimney, pulling up the smoke above human height level.

Dimensions (mm): H 1400 W 500 D 500

III. Accessories

II. 3-in-1 - Grill, Spit Roast and Wok

An accessory for Quadro and Rondo Standard Line products. The complete accessory allows convenient grilling of various products directly on open fire, not limiting the standard cooking surface. Removing the round middle part creates space to put in a wok pot (of a diameter of 25cm). Using the bottom part alone, allows for spit-roasting of meat pieces of up to 45cm in length.

Dimensions (mm): H 150 W 500 D 500

III. Accessories

III. Rolling Base

An accessory for Quadro and Rondo Standard Line products, which makes Quan easy to move around.

Dimensions (mm): H 100 W 1000 D 1000

III. Accessories

IV. Protective Floor

An accessory for Quadro and Rondo Standard Line products, which aim is to protect your terrace floor from dirt. It is made of varnished plywood.

Dimensions (mm): H 10 W 2200 D 2200

III. Accessories

V. Butcher Block

Real wood cutting board.

Dimensions (mm): H 50 W 500 D 500

III. Accessories

VI. Windshield

An accessory for Quadro and Rondo Standard Line products, which protects the food from ash blowing out from the fireplace.

Dimensions (mm): H 120 W 450 D 450

III. Accessories

VII. Spatulas

An essential tool for griddle cooking. Made of stainless steel and wood

Dimensions (mm): H 20 W 100 D 250

III. Accessories

VIII. Frames

An essential tool for griddle cooking. Creates boundaries for sauce, wine or other liquid products.

Dimensions (mm): Large H 60 W 200 D 200, Small H 50 W 150 D 150

III. Accessories

IX. Cedar Boards

Natural wood plates used in order to separate meat, fish or other cooked products from the griddle and to infuse them with cedar wood smoke aroma.

Dimensions (mm): H 5 W 300 D 150

III. Accessories

X. Select Wood

Real oak carefully selected, dried, trimmed to 25cm length to fit perfectly into the Quan fire-lace. Only from FSC certified sources, responsibly harvested.

Quantity: 1 cubic meter
